**Directions** You can travel to/from the airport by public transport, Bergen Light Rail (Bybanen) or the airport bus (Flybussen). The airport bus costs more than Bybanen, however the travel time is faster.

**Bybanen:** From the Bergen lufthavn stop, ride Bybanen in the direction of Byparken all the way to the central bus station. You can buy a ticket at the ticket machine near the exit before leaving the airport.

**Flybussen:** The airport bus will take you to the city centre. If you stay at Villa Terminus or Hotel Zander K. the bus stops nearby at the central bus terminal (Bergen Busstasjon). Tickets can be purchased on board, although it's cheaper to buy online using the Flybussen app.

---

**How to find the Faculty of Fine Art Music and Design** The campus in Møllendalsveien 61 is located by the lake Store Lungegårdsvann, and it takes about 20 minutes to walk from the center of Bergen ([see map](#)). Alternatively, you can go by bus number 12 (direction Montana) or 21 (direction Lagunen) from platforms B and D at [the bus terminal](#), and it will take you there in 10 minutes. The name of the bus stop is Møllendalsveien. Information about tickets is available at → [skyss.no/en/tickets-and-prices/buying-tickets/](#).

The ancient gables and the narrow alleyways will make you feel like stepping back in time to the era when the Hanseatic merchants dominated Bergen’s trade. The guide will tell you interesting stories about the stockfish trade and about daily life in the Middle ages. You will see how the wooden houses were built in specific techniques, and how for instance fire hazard was taken into consideration in terms of how buildings, and later on town squares, were planned. You will also see how, even today, the same techniques are used in restoring the UNESCO heritage, and how new buildings, like the Radisson Blu Hotel, must adapt and “blend in” with the original houses at the Wharf.”</i>	
	Guided city walk at <a href="#">Bryggen</a> followed by funicular ride to <a href="#">Mount Fløyen</a> . Please wear warm clothes, all activities take place outside! Small snack and warm drink is served at the mountain.

### Mockup

With Svein Petter Knudsen

Techniques to transform digital 3d models into physical mockups. An introduction to different software which we use to create 3d paper puzzles.

Max numbers of participants 10

### Typography: Voice as Matter

with Åse Huus, Dóra Ísleifsdóttir and Geir Goosen

Voice as matter is a workshop which aims are creating an alphabet (Aa-Zz). The tool for the task is the RUHA stencil, a module system that has the option of creating different shapes of the same letter/ glyph. The goal is not a homogenous result, but a diversity that display the different solutions from the participants. The artworks will be scanned and digitized to a full workable font.

The first day of the workshop is dedicated to the RUHA stencil and the creation of the letter forms - the alphabet.

On day two you will be presented the digitized font - the result from the RUHA-workshop.

With this font you shall typeset one single word based on a brief. The brief will be given the first day.

A publication will be designed and produced after the conference and distributed to the participants. We have no deadline for that yet
